

Solitaire 710-II

Access Control Solutions for the Lodging Industry

KABA[®]

Total Access

You want your guests to feel as comfortable staying with you as they do in their own home. You offer them comfort and hospitality and are attentive to their needs. But what about the peace of mind that comes from security? Make no mistake. It's at the top of their list. You need a lock system that works with your team, not only to ensure security, but also to save you time and let you remain in control. Your lock system has to be easy to install, easy-to-use, durable, and flexible enough to respond to whatever challenges arise. Plus you don't want to compromise on great style!

Solitaire 710-II

- Designed with both the needs of guests and hotel management in mind
- Worry-free installation and maintenance
- Offers a variety of lever and finish options

Features and Benefits

Designed with Guest Security and Comfort in Mind

- Operates with easy-to-use and reliable magnetic stripe (low or high coercivity)
- Lock features visible and audible feedback
- Includes one-inch solid metal deadbolt for added protection and privacy (available with auto-deadbolt)
- Features automatic cancellation of previous guest keycard to ensure guest privacy and security

Worry-Free Installation and Maintenance

- Easy to install, learn, and use
- Stand-alone functionality, no wiring required
- Foreign objects are removed easily from open reader slot
- Four AA standard alkaline batteries yield 100,000 insertions (or last two to three years, based on 10 insertions per day)
- Low battery indicator alerts staff - data is retained during battery replacement
- Upgradeable lock software on-site

Security Features and Advanced Tracking System

- Audit trail records last 350 lock transactions
- In the event of an emergency, there are numerous available mechanical key override options including a removable core
- Lock can be integrated into master key system
- Programming options allow for limited access to staff and guests in restricted areas or during specified times

Compliance and Certification

- ADA and Shabbat-compliant versions available
- Meets UL 10C and ULC S-104, on fire-rated doors up to and including three hours
- Certified to ANSI/BHMA A156.13 mortise locks (Grade 1) and A156.25 electrified locks (Grade 1)
- Electronics compliant to FCC part 15 Class A and CE directive 89/336/EEC
- RoHS-compliant

Solid, Reliable Construction

- All-metal, heavy duty electronic-mortise and cylindrical lockset
- Precision-engineered mechanics and circuitry
- Infrared communication link to maintenance unit
- Tested to rigorous ILCO and industry quality and performance standards
- Two-year warranty

Remote Access Controller

Remote access controllers are used to regulate access to restricted areas including executive floors, spas, health clubs or parking areas where it is impractical to mount a standard electronic door lock.

Exit Device Operators

Please your guests by providing easier access to remote parts of the hotel. Equip back doors to parking lots or stairwell doors to other floors with exit devices that allow them easy access with a simple swipe of their keycard. Exit devices can also be placed on fire doors equipped with a panic device as well as access-controlled doors.

Override Options

Key Override is the feature that gives you access to a guestroom in the unlikely event of mechanical or electrical lock failure. Recodable cylinder and removable cylinder options are available.

Control Boards

The lock control boards are coated with a proprietary solution to seal out moisture and contaminants.

BHMA Certification

Solitaire 710-II, is now listed in the BHMA Certified Products Directory for ANSI/BHMA A156.25 and A156.13 2002 Electrified Locking Devices Grade 1.

ILCO is an ISO 9001-2000 certified facility.

Finish and Lever Options

Finish Options

Decorative as well as durable, these finishes are designed to complement and enhance any hotel decor.

* The Ultra-Plated Finish

The Ultra-Plated finish is offered for exterior applications. This rugged finish is applied to the lock's solid brass cover for the ultimate in durability and scratch-resistance. Guaranteed against tarnishing for up to two years.

Standard Finishes

Custom Finishes

Lever Options

Several lever options are offered for the Solitaire series lock:

- Standard Long
- Standard Short
- Romance
- Colonial
- Knob

Designers' Choice

A choice of 18 Omnia levers, from traditional to modern designs in 5 different finishes have been selected for the Solitaire series. Ask your ILCO representative for more details.

ATLAS

Driving Hotel Connectivity

Uncompromising Security Meets Maximum Flexibility:

ATLAS (Advanced Technology Lodging Access Solution) delivers state-of-the-art security for guests, staff, and the property while accommodating the particular needs of your operation. Essential features include hotel systems integration, time zones, and comprehensive reporting capabilities. ATLAS accommodates single-station operations to networked, large-scale, full-service facilities.

Protect Your Investment: ATLAS has been designed using the latest open architecture technology, making the best use of current application standards such as .NET/Remoting, Winform and Webform, Windows Services, and SQL Database. This means you get maximum flexibility and maximum choice.

Add Value: Using the existing network infrastructure, ATLAS easily integrates with PMS and POS systems and self-check-in kiosks without the need to add equipment.

Minimal Training Required: Using an intuitive Web browser user interface, hotel staff can operate the ATLAS system efficiently with minimal training.

The Next Generation FDU

Do More with Less

Simple yet powerful, the Next Generation FDU (front desk unit) is ideal for hotels in need of a comprehensive access control system without the hassle of an IT infrastructure.

Stand-alone or interfaced to the property management system, the Next Generation FDU does it all:

- Keycard encoding
- Tracking system and access control data
- Programming locks
- Managing and auditing locks

Save Time and Money

An intuitive menu-driven user interface (complete with multi-language support and online help) makes the Next Generation FDU so easy to use that your front desk personnel will only need minimal training, leaving them more time to look after guests.

USB Connectivity

The Next Generation FDU can be upgraded and reconfigured instantly on-site. Audits can be exported in text files to USB FLASH memory drives.

Live Customer Support 24/7

Any time you need technical assistance, immediate help from ILCO customer service is only a phone call away. This commitment is part of our world-class customer support program and upgraded ISO 9001/2000 certification.

Call toll-free 24 hours a day, 7 days a week, 365 days a year

1.877.468.3555 (option 1)

Our customer support web site provides an interactive option for ILCO customers to obtain technical support, product and software updates, troubleshooting tips, FAQ's, and the latest promotions and industry news online.
