

Oracode Deadbolt 460K

Ideal for vacation rentals, property management companies, timeshares, corporate housing, or individual apartments and condos. The 460K lock replaces existing deadbolts and gives the owner the ability to grant access remotely.

The Oracode Line-up

The Oracode deadbolt 460K completes the Oracode line-up. Any door can benefit from the unique Oracode system. The 660K lock offers mortise, cylindrical latch, and panic bar options while the 460K lock offers a deadbolt solution.

Stylish design

The small, sleek design of this keyless deadbolt will blend with most levers and enhance the design of any property.

Easy to Install

The Oracode 460K installs in minutes
– No wires through the door!
– Only one screw hole is needed!

Made of Solid Brass

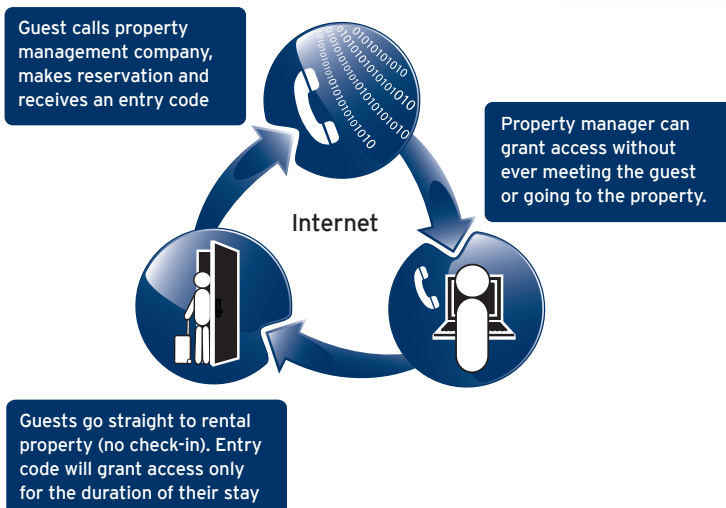

Outside housing and knob are solid brass, making the lock very durable even in the harshest environments.

Mechanical Key override features Bump Halt

Bump Halt provides a bump resistant solution for the mechanical key override of the 460K deadbolt.

Simple Retrofit

Property management can keep existing locksets and reuse them as needed.

Functions

- Six-digit guest codes
- The deadbolt is projected or retracted with a thumbturn

Features

Mechanical Features

- 1" solid brass deadbolt with hardened steel insert
- Vandalism and attack resistant
- Emergency access by mechanical key override
- The Oracode 460K lock design utilizes a patented LectorBolt mounting screw, allowing installation without running wires through the door and eliminating the risk of damage from pinched wires
- Three AA alkaline batteries, with a three year lifespan

System Features

- The Oracode 460K stores up to the last 1,000 entries showing date, time, user, and code
- Codes expire at the end of the stay
- Up to one million possible codes
- Tamper shutdown protection
- Lock time and set-up parameters are maintained for up to four weeks, facilitating battery changes and lock shipping
- Audit trail is permanently maintained to ensure the highest level of security
- Provides audible and visual indicators
- Unlock time is adjustable from five to 15 seconds by administrator level user
- Deadbolt has 128 different access levels
- Electronic-code secured Website
- Tech support is available 24/7

Benefits

Owner/Manager Benefits

- No software to install
- The Oracode 460K eliminates the cost of managing or replacing keys or cards
- This versatile and reliable security system operates as a Web based stand-alone system or can interface with various property management systems (PMS)
- Increase security immediately and economically
- Installs in minutes
- No keys, cards, or wiring
- No more midnight rendezvous to replace lost keys

Guests Benefits

- Guests don't have to check out, pick up, or drop off keys
- Guests don't need to remember where they put their keys or access cards
- Time sensitive codes grant access
